About the Global Shapers Community

The World Economic Forum established the Global Shapers as a special community of extraordinary young people in their 20s. The community provides young leaders with a global platform to shape the future – integrating the personal, community and global dimensions of leadership. Through the unparalleled convening power of the World Economic Forum, the Global Shapers Community is diverse in demographics, geographical areas and sectors. However, it is united by a common desire to channel members' tremendous energy and enthusiasm into building a more peaceful and inclusive world.
